

Activate Rows by Row Labels

Author: Gabe Rudy, Golden Helix, Inc.

Overview

Activate only the rows in this spreadsheet whose row labels are in another spreadsheet specified by the user. Any inactive rows in the other spreadsheet are not used in activating rows in this spreadsheet.

Recommended Directory Location

A good directory location for saving this script would be:
C:/HelixTree/scriptsHT/user/Spreadsheet/Edit/.

When saved to this folder, the script will be accessible from the spreadsheet Edit menu.

Using the Script

Open the spreadsheet whose rows you would like to activate. Choose >Edit >Activate Rows by Row Labels. This will pop up a spreadsheet chooser. Choose the spreadsheet whose rows you would like to use to activate the rows on the original spreadsheet.
